By the Thunder and Lightning Telegraph. Kossuth and Concy Island.

GREAT AND ENTHUSIASTIC MASS MEETING FOR "MAfraom our SPECIAL REPORTER.]

On Wednesday evening, there was a tremendous mass meeting of the inhabitants of the ancient, independent, and sovereign State of Coney Island. It was convened by the Governor in the following

Citizens of Coney Island—friends of Hungary—lovers of clams—come to the rescue. Rally for Kossuth. clams, Hungary and liberty. This afternoon, at six o'clock, will be held a mass necting on the beach for the purpose of contributing material aid to the Magyar (not Meagher), and it is confidently expected that every friend of liberty will bring along the sinews of war.

GILBERT CLAMSOUP.

Long before the time appointed for the meeting, the beach was covered with animated beings down to low water mark, and the excitement and enthusiasm were immense, particularly among the nymphs of the waves. A handsome platform was erected, which was filled by the most prominent and respectable citizens, and the Washington Bass Band of Concy Island, which discoursed most excellent music. Se veral patriotic airs were performed in capital style, and amidst loud applause. "The Marseillaise" created quite a furore, insomuch that the whole multitude simultaneously, and as if moved by one impulse, united their voices to the instrumental music in this hymn of freedom, and the effect was grand beyond description. Wee to the Emperor of Austria, or the Autocrat of Russia, if either had been at that moment within the limits of Coney Island.

The meeting having been called to order by Mr. John Fearnought, the GOVERNOR presided on the occasion and explained the objects of his call. He said he was very sorry to learn from the New York Tribune, and from a private note from Governor Kossuth himself, that instead of \$150,000, as previously reported in his other organ, the New York Times, his Excellency had only realized \$90,000, which they all knew was but a very small sum to commence a revolution with against the combined wealth and resources of the despotisms of Europe. He had therefore called them together to see what could be done in this emergency, and before Kossuth left our shores for the Old World. He hoped they would take the matter into their patriotic consideration, and that they would so swell the revolutionary fund, that the great Magyar may return to London with "a light heart and a thin pair of breeches," and proceed immediately to overturn all the thrones of Europe, one after another, and establish a universal red republicanism on their ruins. He called on them by their love of fiberty, their devotion to their country, and their veneration for the great father of this republic, who left his principles as a legacy to his children, in his farewell address—he called upon them to come forward and contribute generously towards this great mission, whose object was to smite the Russian bear between the two eyes, and make steaks of his car-Times, his Excellency had only realized \$90,000, between the two eyes, and make steaks of his car-Here the enthusiasm became intense. The men

shouted to the full extent of their lungs, and whirled their hats on the tops of their canes, while the ladies waved their handkerchiefs, and the big tears coursed each other down their fair cheeks. It tears coursed each other down their fair cheeks. It was a most affecting scene. The hearts even of the sterner sea were so touched with the infectious sympathy that several of them began to "blubber." like children. The mermaids, who had given indication of the deep interest they took in the proceedings, by approaching near the spot, and listening, with outstretched necks (and such necks), to the stentorian voice of his Excellency, now became frantic with enthusiasm, gamboled in the waves, and made somersets of the most extraordinary kind. Several of the syrens were the Bloomer costume. The clams opened wide with joy, and each seemed to say, "Who will have me?" The porpoises played leap frog within a few yards of the shore; the lightnings flashed, and heaven's artillery roared; and all nature, animate and incanimate, exulted in the sentiments of the speaker, and expressed its symsentiments of the speaker, and expressed its sym-pathy, vocal or mute, with the great Hungarian cause, and its illustrious champion, Kossuth. Mr. Peter Valiant, in rising to move the resolu-

tions, said this was a proud and glorious day for Coney Island. It had come out in all its native strength for the cause of down trodden Hungary, and coney Island. It had come out in an its native strength for the cause of down-trodden Hungary, and the tyrants of the old world, the emperors and the cars, would tremble on their tottering thrones when the New York Herallo brought the news to Europe. He was happy to see one of "the unrivalled corps" present taking notes, and he knew a full and cerrect report would reach the public. As in this great crisis deeds were better than words, and as the "almighty dollar" was the great power that moved the world, he would propose, without further observations, the following resolutions, and he hoped they would be unanimously adopted:—

Resolved, That we, the people of Coney Island, hat all despots and despotisms, and that we sympathise with the solidarity of the peoples in Europe, and that we pledge our lives our fortunes and our secred honor. In this great and gloous cause of humanity. (Imasses applaance, waving of hats, and enthusiaem at the boiling point)

Resolved. That we, the people of Coney Island, are a power on earth and that we will make ourselves feit from St. George's Channel to the Caspian, and from the Mediterrancan and the Black Sea to the White Sea and the Arctic Ocean.

Resolved: That we will have a voice and a vote in all

the Arctic Ocean.

Resolved. That we will have a voice and a vote in all

the diplomacy of the European powers and that we can make and unmake alliances and treaties, and that we shall back our vote and voice, it necessary, by the thunder from our wooden walls and by the terror of our meteor flag.

Resoived, That we raise a contingent of men. money, and arms for the holy war against leagued despotism in Europe.

Resolved. That we raise a contangent of mean and arms for the holy war against leagued despotism in Europe
Resolved. That subscriptions be now taken, and that a list be opened for the names of such gentlemen as are willing to contribute but have forgot their purses.

The resolutions were then put from the Chair and carried unanimously, and amidst the most tumultuous excitement and applause.

The dollars then showered in so fast that the Governor was almost smothered with them, and it was necessary to appoint four Secretaries to take down the names of subscribers. Several ladies then threw their gold watches on the table, and others their diamond rings and most precious trinkets. Since the days of the Irish revolutionary excitement at Vauxhall Garden, immediately before the great and bloody battle of Silvergammon, there has been nothing in this country to compare with the scene of Wednesday evening. To be realised it must have been witnessed. It beggars description.

The amount of hard cash in claim currency collected was announced to be \$50,000, and the subscription list contained names for \$60,000 in fresh claims.

This result brought forth a shout that made the welkin ring.

A committee of five, Messrs. Nicholas Dichard,

welkin ring.

A committee of five, Messes. Nicholas Dichard,
Felix Stoutenburg. Augustus Conquest, Henry J.,
Fox, and Horace Shortbreeches, were appointed to
wait on Kossuth, and present him with the resolu-

wait on Kossuth, and present him with the resolutions and the money.

Mr. Joseph Sagt was then announced as the
first speaker. He said be was sorry to see, in a recent number of an anti-Kossuth paper, an insinuation against the courage of Kossuth, and it was intimated that he had run away, and left his arms,
men, and Hungary itself, in the hands of the
enemy. He would like to know what else Kossuth—
as a prudent man, as a sensible philosopher, who
had a due regard for No. I—ought to have done than
to consult for his own personal safety by flight. It
is an old adage, but a true one, that "discretion is
the better part of valer," and
He that fights and runs away,
May live to fight another day.

May live to fight another day.

At this moment a peal of thunder burst over the At this moment a peal of thunder burst over the heads of the meeting, and a torrife shower followed instanter; upon which Mr. Sage said he thought they ought to all imitate the example of Kossuth, and fly for shelter at once. His motto was, "any port in a storn." In the same breath, he jumped from the platform, and there was an immediate breaking up of the vast assemblage—men, women, and children might be seen running, pell mell, helter skelter, in all directions. In fact, such scampering was never seen on Coney Island, since it emerged from the sea. The reporter having secured his notes in an inside pocket, ran \*\*s fast as the rest, and found refuge at last, like a drowned rat, within the hospitable walls of the Ocean House, which was already crammed with a crowd of ladies and gentiemen, all dripping wet, but very prudently guarding against cold by taking a little brandy or wine—some in the form of hot negus, some in punch, and some in its native purity, as it came from the cellars of the Governor. All congratulated themselves that they were not at Newport, and that Coney Island was free from the tyranny of cold water and the Maine Liquor law. In the evening there was a merry dance, and thus ended the greatest demonstration that ever took place in the sovereign State of Coney Island. reign State of Coney Island.

ARRIVAL OF MORMON MISSIONARIES FROM EU-ARRIVAL OF MORMON MISSIONARIES FROM ECBOYE.—Several Mormon missionaries have lately returned from Europe, where they have been hard at
work. The Frontier Guardian, published at Kanesville, Iowa, of May 25th, says:—We are pleased to
notice the arrival of Mr. John Taylor, a Mormon
missionary from France. Mr. T., in our estimation,
is a man of talent and energy. He laid before us a
coppy of the Book of Mormon, published in French,
and another in German, which, from their appearance, we judge that the mechanical part could not
be excelled in any country; and as to the literature,
we pronounce it par-excellent.

CANAL TOLLS AT BUFFALO .- The amount of canal toils taken at Buffalo during the second week to June, exceeds the amount collected during the same week last year, by \$8,815 26.

The Reported Tehuantepec Graat.

[From the New Orleans Picayune, June 9th.]

The conclusion of the contract of Mr. Sloo with the government of Mexico, for the right of way across the 1sthmuss of Tchuantepec, is no longer dountful. Parties in this city have received authentic letters, by which it is evident that nothing but a formality is wanting to close the affair; and by the next arrival the official intelligence of the signature, and official copies of the ratified contract, are expected.

We published yesterday the decree of Congress, prescribing the terms upon which the President is permitted to make the contract. The contract with Mr. Sloo, as we understand, is strictly within the letter of the decree. The leading articles are as follows:—

The right is granted to Mr. Sloo and his associates to open a communication across the 1sthmus of Tchuantepec, first by plank road, and then by railroad or canal, as may be deemed expedient; the privilege to be exclusive for forty years after the completion of the road. The plank road to be commenced within one year after the date of the grant, and to be completed as soon as possible; the railroad to be commenced as soon thereafter at transit and transportation will justify, and be completed with all despatch.

With the right of way is granted a tract of land of one league in width on each side of the road, with the privilege of taking timber and any other material for the construction of the road, from any of the public lands, the grantee engaging to pay a fair valuation for any private lands he may take within the limit. The grantee is to possess, for the whole term of forty years, the right to collect transit dues; reverts to the government is to receive from the company two-fifths of the net earnings of the road; and after the end of the term, and the right of collecting the transit dues reverts to the government is to receive from the company to the company. There is a provision that each party shall have the appointment of agent to supervise and control the recei

Very Singular Case of Crime—An Old Lady Robbed by one of Her Helrs.

[From the Springfield Republican]
One of the mest singular cases of crime, in its commission and discovery, that we have ever known, it now falls to our lot to record. We will state the case without formality, drawing the facts from the testiment given mades out. testimony given under oath.
On the 17th of March, Mrs. Lydia Andrus, an old

On the 17th of March, Mrs. Lydia Andrus, an old lady of Russell, nearly blind, had a box taken from her room containing \$4,000 worth of notes. The robbery was reported at the time of its occurrence. It now turns out that Dr. Henry Andrus, a well known quack, who has figured in this and other towns for a series of years, was the robber. He walked into the room, took the box and walked off with it. with it. This was on a moonlight evening. Before the box had been gone five minutes, the old lady missed it and raised the alarm. At this time the Doctor was not out of sight with his booty, and those around the house gave chase. His traces were followed, and the Doctor perceiving it, threw the box into a woodhouse he was passing, and gaining a brook followed it down, and thus got them off the a brook followed at down, and thus got them of the seent. He then took a circuit, and joined the pursuers as zealous as any of them. After having given up the chase, the Doctor took his time to visit the woodhouse and earry off the box. This he transferred to his bparding house and burned up, saving the notes, and hiding them under the floor of the Soon after this. Andrus left for Connecticut, where

he remained until the old lady, one of whose heirs hewas, died. He then returned, and on Friday last visited Dr. DeWolf of Chester, to whom he unbo-somed himself, and whom he offered \$500 if he would somed himself, and whom he offered \$5900 if he would assist him in a proposed scheme. Among the papers was one upon which the old lady had written her name, at the foot of a parily blank page. This page Andrug wished Dr. DeWolf to fill up, over the signature, with an instrument conveying to Andrus all the notes he had stolen. He told Dr. DeWolf that he could bring on a witness, to swear that he saw the old lady sign the deed. The hue and cry raised on the discovery of the absence of the notes was to be accounted for by supposing the other heirs angry at her having conveyed them to him.

Dr. DeWolf entered into this charming plot with a gusto that none can appreciate but those who know him, promised all assistance, and managed to meet Andrus every night until Suaday night. In the meantime, he had induced Andras to bring every stolen note to his house, so that he might specify them in the instrument. On Sanday night, the last instalment came; and when it came, Dr.

specify them in the instrument. On Sunday night, the last instalment came; and when it came, Dr. DeWolf, who is a magistrate, had prepared a warrant, and an officer to execute it. As soon as matters were perfectly ripe. Deputy Sheriff Knox was called in, and took possession. On Monday, Andrus was brought to Springfield, betore Justice Morton, when the facts we have related came out. The prisoner was examined, and bound over in \$1.000 to appears at the Criminal Court in December next. He pear at the Criminal Court in December next. He procured bail, and is now at liberty.

Items from Lake Superior.

Hems from Lake Superior.

[From the lake Superior Journal, 5th inst.]

We are pleased to hear that a party of Englishmen are curoute for an exploring expedition to the north shore of Lake Superior. We are satisfied that the British coast of this lake has not been half explored. Copper, silver and iron are found at several points on islands and near the shores; but few have ever examined the country to any distance in the interior. When this shall be done by scientific as well as practical men, we doubt not that side of the lake will be found to be rich in their metals.

Charles Whittlesey, Esq., of Cleveland, recently

Charles Whittlesey, Esq., of Cleveland, recently connected with the United States geological survey of this mineral land district, passed up the lake last

connected with the United States geological survey of this mineral land district, passed up the lake last week on a visit to the mines.

Messrs Miller & Germans, from the neighborhood of the Hatra mountains, have just returned from a visit of scientific observation to the copper mines. They speak in high terms of the superior mineral resources of the country, and wonder that its immense wealth of copper and iron has been so long mp aratively unknown to fame. We doubt not they will make such a report to their countrymen as will be the means of brioging to this rich field for investment, many of their enterprising capitalists. It is probable they will make another visit to Lake Superior this senson.

The Ontonagon steamer reached the head of the rapids on the second inst., zafe and sound, and with not half the trouble and expense that was anticipated. She will be fitted out and sail for the Ontonagon on the first of the week.

The arrivals of copper during the past week have been, per schooner Florence, on the 3d, 18 tons, in masses and barrels, from the Siskawit Mine, Isle Boyale; per propeller Manhattan, on the 4th, 63 masses and 46 barrels, equal to 45 tons, from Northwest Mine; per S. B. Baltimore, on the 5th, 25 tons, in masses and barrels, from the Cliff Mine.

Geo. K. Smith, Esq., Superintendent of the Lake Superior and Michipicoten Iron Company, passed through this place this week, with a number of men and outfit of supplies for the north shore iron mines. A small earge of this valuable ore will be sent down to Pittsburg in a few days, to be fully tested in various mnunfactories. It is said to be quite equal to the Carp river iron, and as abundant.

quite equal to the Carp river iron, and as abundant.

Lynch Law at Dunkirk,—On the evening of June 14, about 2,000 of the inhabitants of Dunkirk rose on masse, and attacked the house of Henry Tiles, foreman in the N. Y. and E. Railroad machine shop, and having captured him, burned his house to the ground. Tiles had accused another man named Isaac Smith, in the same establishment, of having improper intercourse with his wife, with a view of extorting money from him, and on the false oath of Tiles' wife. Smith was arrested, tried and acquitted. Tiles' wife, Smith was arrested, tried and acquitted. Smith took it so much to heart that he committed suicide yesterday. Tiles' wife then confessed her perjury. On facts getting wind the inhabitants rose as above. Tiles is in their custody, and serious disturbances are apprehended.—Rochester American, 17th inst.

Cholera among the Troops.—A letter from Fort Leavenworth, dated the 17th ult., conveys information of the existence of the cholera among the recruits intended for the army in New Mexico. They left St. Louis two or three weeks since, to the number of about three hundred. This letter says:—"From a report received from Major Steen last night, I learn that his march was arrested by the prevalence of the cholera in his command. There had been nine fatal cases, and yesterday the surgeon reported forty-seven men under treatment for that disease."—St. Louis Republican, 10th inst.

THE COPPER COUNTRY .- The news from the copper country is coming in. This country has been shut out since last fall, and on Isle Royal they have been confined since the 20th of November last. We notice that copper is very scarce and advancing in price. In the Cincinnati market there is little to be price. In the Cincinnati market there is little to be had. Such is the eagerness to secure a supply of copper that many merchants have made large cash navenees, and secured all the product of several mines at advanced prices—Louisville Journal, June 12.

## COMMERCIAL AFFAIRS.

MONEY MARKET.

THURSDAY, June 17-6 P. M. The stock market does not continue so buoyant as anticipated, but the transactions are large. A larger por tion of the sales to-day were for cash than we have oberved for some time past. Speculation appears to be onfined to two or three leading fancies, while the other are almost entirely neglected. At the first board Eric Bonds, 1871, advanced ½ per cent; Florence and Key-Jersey Zinc declined 1/4 per cent; Nicaragua, 13/4; Erie Railroad, 1; Canton Co., 1/4; Norwich and Worcester, 1/4; Michigan Central, 14; Hariem, 14. At the second board Pennsylvania Coal Co., improved 14 per cent; New Jersey Zinc, 14; Delaware and Hudson, 14; Eric Bonds, 1871, 14; Phenix Coal Co., 36; Erie Railroad, 36. The market closed firm, with an upward tendency. Erie Railroad was not much affected by the reduced dividend declared It appears to be the impression in the street that it is the wisest policy the company could have pursued. A statement will soon be made of the earnings and expenditures for the past six months. Hudson Railroad is looking up. A small lot was sold to-day at 65, showing an improvement of three per cent in as many days. Pennsylvania Coal Co. was in active demand this morning, nearly one housand shares having changed hands. The advance in the price of coal has been the principal cause of the advance in prices for coal stocks; and as the season advances, the probability is that even a greater improvement will be permanent. The receipts at the office of the Assistant Treasurer of

his port to-day, amounted to \$86,180; payments, \$1,025 07-balance, \$4.266.474 57. The Hanover Bank has declared a semi-annual divi-

dend of four per cent. The annexed statement exhibits the condition of the State Bank of Indiana, and branches, on the 30th of

Compared with the returns dated the 17th of Novem ber, 1849, there has been an increase of \$1,633,597 in the line of discounts; in circulation, \$511,265; in deposits: \$270.020; and a decrease in specie, of \$359.374. The ag gregate movement has increased \$1.171,643.

The Cheshire Railroad Company have declared a divi dend on the preferred stock, of \$3 per share; the United States Hotel, Boston, a semi-annual dividend of two per cent; the Naumkeag Steam Cotton Company, Salem, a dividend of four per cent.

The Treasurer of the United States Mint, Philadelphia-

has made the annexed statement relative to the intrinsic value of California coinages. It will be seen that the quotations we have published were correct:-

quotatious we have published were correct:—

MINT OF THE UNITED SCATES.

PURLADELFHIA, JAME 7, 1852.

J. THOMESON, Fisq., Bullion Broker, No. 2 Wall street, New York.—Dear Sir.—A heavy pressure of business, consequent upon a large arrival of California gold, prevented me from answering, on Saturday, your notes of the 4th inst., which, with the deposits therein named, were received on that day. The directions we are unable to comply with: nor would your object have been attained even if they had been. One hundred dollars to the minimum, fixed by law, for a separate deposite and assay, and as only two of your parcets of coin reached that amount the rest had to be thrown together or returned. Now as every lot of coin made in California (and it would exacely be going too far to say every coin.) varies in "intrinsic value" with the gold of which it bappens to be made, and the proportion of silver comeaned therein, an assay, such as you desire, would not, and could not, give the requisite information. Under these circumstances, it was deemed most for your interest to make one assay of the coins and another of the grains.

Very respectfully, your obedient servant.

E. C. DALE, Tressurer.

The Albany Dalb Reviser gives the annexed official

The Albany Daily Register gives the annexed official table of receipts at tide water, of the principal articles of

produce, from the opening of the canals to the 14th inst inclusive :--1250 4851.

5,573,742 7,816,863 1,429.9 Rye, de. Other grains, bush Boef, bblz Perk, de Ashes, de. Butter, its, Lare, de.

Up to the close of the second week in June, in 1850, the canals had been open fifty-four days; in 1851, sixty-one days, and in 1852, fifty-six days. Compared with 1850: here has been an increase in the principal articles of

breadstuffs. The quantity of flour, wheat, corn, and barley left at tide water, during the second week in June, in the years

1851 and 1852, was as follows:-Inc. 20.599 Inc. 79.060 Inc. 6.641 Dec. 715

The aggregate quantity of the same articles left at tide water from the commencement of navigation to the 14th June, inclusive, during the years 1851 and 1852, was as

| Flour.blis. Wheat, by. Corn, by. Barley, by. | 1861 | 969,176 | 447,092 | 2,285,567 | 95,719 | 1862. | 723,421 | 898,219 | 1,429,065 | 71,076

Dec. 240,755 Inc. 361,217 Dec. 856,512 Dec. 24,643 The aggregate quantity of the same articles left at tide water from the commencement of navigation to the 14th June, inclusive, during the years 1850 and 1852 was as follows:-

110.585 71,076

Inc. 230,007 Inc. 645,445 Inc. 736,022 Dec. 30,500 By reducing the wheat to flour, the quantity of the latter left at tide water this year, compared with the corresponding period of last year, shows a decrease of 168 512

The Galena lead mines have not been so productive this year as last. The shipments from the mines, during he month of May, 1862, amounted to 54,650 tons, against 71 St0 tons in the corresponding month last year, showing a decrease of 17,231 tons. Total shipments this year. o June 1. 109,104 tons; to same date last year, 170,323 tons-decrease, 61.219 tons. The advance in prices has stimulated miners, and it is the general impression among lead dealers, that the dimunition of the products of the mines in 1852, compared with 1851, will be less than was generally supposed. The shipments have been less than last year from another cause-the desire to hold on for higher prices. This has made the decrease appear greater than it really is.

The earnings of the Wilmington and Manchester Rail coad Company during the months of April and May smounted to \$2.453. Only twenty-five miles of the road

are in operation. The Governor of Illinois, in his message to the Legis lature of that State, gives a very favorable account of the working of the special State tax levied for the purpose o paying the interest on the internal improvement debt of the State. The new constitution of Illinois provides for the appropriation of the proceeds of this tax to the payment of the principal of the internal improvement debt pro rata upon the bonds presented. Au amendment to the constitution, now before the people of that State, contemplates an important change in this article. It is proposed that, instead of applying the money in the form of an indersement upon each bond presented, it may be used in purchasing State bonds generally, at their market value. To give immediate effect to the amendment, if approved by the popular vote, a law ought to be passed, defining the manner in which it shall be executed, the proper officers to take charge of the fund as it is received into the treasury. point out his duties, and the way in which he shall discharge them, with such appropriate responsibilities as ought to attach to the same. The Governor says it may be safely assumed that the average annual receipts from the two mill tax, for the next five years, will amount to at least \$870,000 or \$400,000, and, if judiciously applied, may be employed to redeem the entire interest paying portion of the internal improvement debt, before the time when the bonds for the same become payable.

Proposals for the bonds of the Evansville and Illinois Rakroad Company will be received at the office of Cam, mann. Whitehouse & Co., 56 Wall street, until three o'cleck on Saturday, the 19th of June. The bonds are for \$1,000 each, redeemable the 1st of January, 1862, and thear interest at the rate of seven per cent per gunun, with coupons, payable January and July each year. They

are secured by a first mortgage on the entire property of the company, which is deposited in the hands of Evan R. Bebb and John F. A. Sandford, of this city, in trust for the bondholders. These bonds are convertible into stock up to the 30th of April, 1857. The proceeds of these bonds will be appropriated to the completion and equip-ment of the first section of the road, extending from Evansville to Vincennes, a distance of fifty-one miles where it joins the Ohio and Mississippi Railroad. This road will form an important feeder to the Cincinnati and St. Louis Railroad, and it will also draw a large traffic from Kentucky. A road has been chartered from Henderson, in Kentucky, nearly opposite Evansville, to Nashville, via Hopkinsville and Clarksville, and active measures have been taken for its immediate construction This line will be of great value to the Evansville and Illinois road. Evansville is an important outlet on the Ohio river, it being the southern termination of the Wabash and Eric Canal. All the Western cities, and the country around them, are growing so rapidly that the local travel of the railreads of that section of the Union must an nually increase a very large per cent, and as a matter of

course, if properly managed, be highly profitable.

## CITY TRADE REPORT. THURSDAY, June 17-6 P. M.

Ashes were more active, 150 bbls, having been sold at \$4 75 a \$4 8114 for pots, and \$5 6214 a \$5 68% for

BREADSTUFFS.-Flour appeared inanimate, the trans actions only reaching 8,000 bbis : mixed to fair Western, and ordinary to choice State, at \$4 121/4 a \$4 25; fancy Western and favorite Ohio, at \$4 25 a \$4 371/4; with com mon to good Southern, at \$4 43% a \$4 62% per bbl. 250 bbls. rye flour found buyers at \$3 18%; with 200 bbls. State and Jersey meal, at \$3 12½ a \$3 18¾—the former rates. About 10,500 bushels prime white Genesee wheat were procured, in part at \$1 14. an abatement; with 33,000 bushels unmerchantables, with mixed Western and round yellow corn, at 56c, a 61c., and 61½c, a 63c., and

round yellow corn at 56c, a 61c, and 61½c, a 63c, and 60c, a 64c, the previous figures. River tye was held at 78c, and ruled scarce. State oats were briskly dealt in at 42c, a 44c, per bushel.

Candless.—A parcel of 100 boxes plain and patent sperm fetched 40 a 50 cents.

Copper.—Sales have been made of 400 bags Rio, at 9½ a 19½c, and 50 Laguayra, at 9½c, per 1b.

Corrow.—The Europa's advices are quite as favorable as holders anticipated; but as buyers hang back, and the quantity on sale rather increases than diminishes, a very dull market at previous prices, is the result. The sales were about 500 bales.

Day Goods.—Trade is becoming very quiet—the late demand has effectually reduced stocks, while the enanced value of raw cotton has caused an advance in all staple cotton goods. The increased firmness we have previously remarked in domestic wollens and foreign silks continues, and what few parcels of the latter have come out for the early fall trade, are at higher prices. Southwestern buyers have appeared in market, and will increase in number, which will prevent any total deadness of trade in this, the duilest of summer months. As the market is now a rising one, jobbers and dealers are continually on the look out for cheap parcels of seasonable goods, though a little oid. Unbleached goods are light in stock. Heavy sheetings are very strong at 7 a 7¼, and with an upward tendency. Beached goods are active and buoymarket is now a rising one. Jobbers and dealers are continually on the look out for cheap parcels of seasonable goods, though a little oid. Unbleached goods are light in stock. Heavy sheetings are very strong at 7a 7½, and with an upward tendency. Bleached goods are active and buoyant, with a good expert demand. Drills are firm, with a good inquiry: browns 7½ a 7½c; bleached 8c; and blues 9c. Oemburgs are quiet but firm; denims are inactive; ticks are in request and steady; stripes dull; printing cloths are looking up—the demand has improved. Prints are in some little request for the early fall trade, at regular prices. Ginghams are inactive. Lawns are firm, with a lingering summer demand. Delaines are quiet. Cloths are daily strengthening in price—the clothics: are making purchases—all low qualities, under and up to 309, sell briskly. The stock is very much reduced, as reproduction has not kept pace with the sales. Plain styles of cassimeres are in fair request and firm. Satinets are again active, principally for the clothines; prices are firm. Linseys are in request at 14½c. Tweeds and jeans are dull. Flannels are active, at old rates. Blankets are in fair demand and steady. The clothing importers are making moderate sales to that branch of trade for the fail season; but foreign goods generally are dull. The last auction sale of the season is in this week. Prices are much batter, and the small amount of goods left over are held very firmly. The imports are very light, but large quantities are expected in this coming month, as it is understood that the orders sent to France from this country are very considerable; and when to these are added the goods sent here on commission, the market seems likely to be glutted. The only apparent check is in the advance of the raw materials; raw slik, however, in France, is less firm than it was. The shipments from Liverpool to this country, in all May, were as follows:—To New York, 5 277 packages; Bocton, 1,102 packages; Philadelphia, 1,639 packages; Bocton, 1,102 packages;

Phanged.

IRON.—A steady demand prevailed for Scotch pig, at \$20, six mouths.

LEAD.—We heard of 2,000 pkgs, Galena being sold at \$5 per 100 ibs., customary terms.

LEME appeared dearer—900 bbls, common Rackland realizing \$5c.

NAMA, STORMS.—Beyond the disposal of 100 bbls, spirits turpentine at 44 a 45c., and 900 bbls, common rosin at 51 25 a 51 30, we have nothing to report.

Onus.—About 2,000 gallons finseed were purchased at

ic. per gallon, cash.

Provisions seemed less active, the sales consisting of

200 bbls, prime and mess pork, at \$10½, a \$10½, and \$18½ a 15½; 350 pkgs shoulders and hams, at \$ a 8½, and \$10 a 9½ per 16; 300 bbls fair to prime lard, at \$10 a \$10 a 3½ per 160 lbs; 200 bbls prime and mess beef, at \$60½ a \$8, and \$11 a \$14, with 120 bbls, beef hams, at

\$10 31% per 160 ibs; 200 bbls prime and mess beef, at \$65% a \$8 and \$11 a \$14, with 120 bbls, beef hams, at \$16% a \$163%.

Real Estate.—Sales by anction:—The lot of ground No. 32 Wall street being 28 feet 7 inches on Wall street by about 116 feet in depth, with the building now occupied by the City Bank, \$80,000. Brooklyn Property—Three lots on Elizabeth street, near Van Brunt street, each \$189; one do. Van Brunt, corner of Partition street, 20x75 feet, 655; three do. do adjoining, do., each \$470; one do. do., 20x80, \$355; one do. do., 20x100, \$480; three do. Dikeman, near Richards street, 21x80, each \$300; four do. do., 20x100, \$480; three do. Dikeman, near Richards street, 21x80, each \$300; one do. do., 20x100, \$355; four do. do., 20x100, \$450; two do. & 20x100, \$450; one do. 30ilivan street, 21x100, each \$300; four do. do., adjoining, do. \$335; one do. do., 25x100, \$375; four do. \$30ilivan street, 21x100, each \$300; four do. do., adjoining, each \$205. Sales on Tuesday—3 lots on Forty-first street, near Third avenue, each \$1450; 1 lot on Second avenue, corner 107th street, \$106; 3 do. do., adjoing, each \$100. \$ do., adjoining, each \$100. \$ do., adjoining, each \$100; four do. \$300; four

Every endeavor will be exerted to insure fee the hotel the distinguished patronage of previous geneeus. Flass may be seen and rooms engaged at the above hetel, a faitheld, or at the New York Hotel. The distance from New York Hotel. The distance from New York Hotel. The distance from New York Islot. The Stringle group Market Hotels and trains by the New York and New Hore Stringle groups times such

THE SUBSCRIBER CAN ACCOMMODATE TWENTYfive or thirty summer boarders at his residence in
Greens Farms, Conn., or reasonable terms. The location is
very pleasent, being on the turnpike rousi leading from New
Jurk to New Haven, at a convenient distance from either
Weetport or Southport Depot, on the New York and New
Haven Railroad, commanding an extensive view of the
sorrous ding country and Long Island Sound. The shore
of the Sound at this point affords fine sea bathing. My
carriage will be in readiness at all times to convey boarders to the beach, or for a pleasure ride. Persons visiting
the Farms will find it more economical, without any ascriftee of comfort, to step at the Westport Depot, where
they will always find carriages in readiness, and the ride
over a good road, with fine scentry, agreeable.
JOHN GOODSELL.

C APE MAY—SEA BATHING.—CONGRESS HALL will be open on the 10th of June inst. The location of this house, sad the high and beautiful grounds in front, reader it the most desirable of any on the island. The proprietor hopes to merit a continuance of the very liberat patronage are to do recruit a continuance of the very liberat patronage are restore received. W. B. MILLER, Proprietor.

we heretofore received. W. B. MILLER, Proprietor.

WOOSTER HOUSE, DANBURY, CONNECTICITY,
Was opened on the first of June. It is large, newly
built, and supplied with spring water for bathing, &c. and
has all the conveniences of medurn hotels. Danbury is
about three hours' ride from this city, by the New York and
New Haven, and Danbury and Norwalk Railroads, and
offers attractions to those wishing to visit the country during the summer months. W. SIMONSON.

offers attractions to those wishing to visit the country during the summer months.

SEA BATHING AT ROCKAWAY, L. I.—THE PA vision Hotel is now open for the reception of visiters, care leave the South ferry, Brooklyn, for Jamaics, every day except Sunday, at Po'clock A. M. and 4 and 6, P. M., where stages will be in readiness to convy visiters to the house. Any communication for me left with J. Ogden Smith, 63 Front street, will be promptly attended to.

J. M. HRINTNALL.
